

Bridge Co-Working Software – Error & Issue Report

Date: 22 August, 2025

Identified Issues

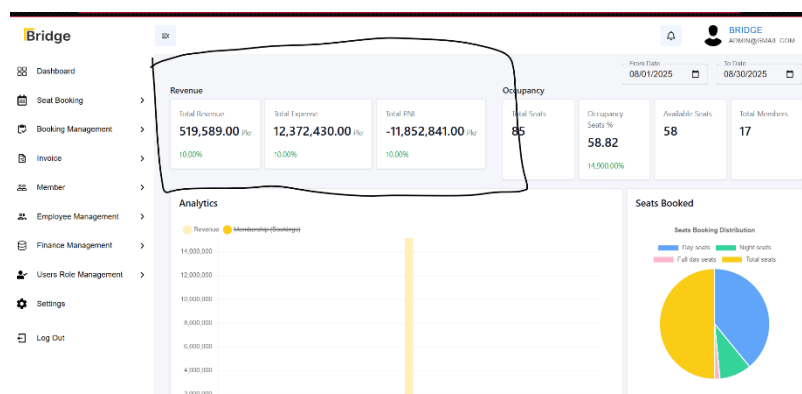

1. Investor Dashboard

- When logging in as an **Investor**, the dashboard shows only a **white screen**.
- No analytics, KPIs, or data are visible, making it inaccessible.

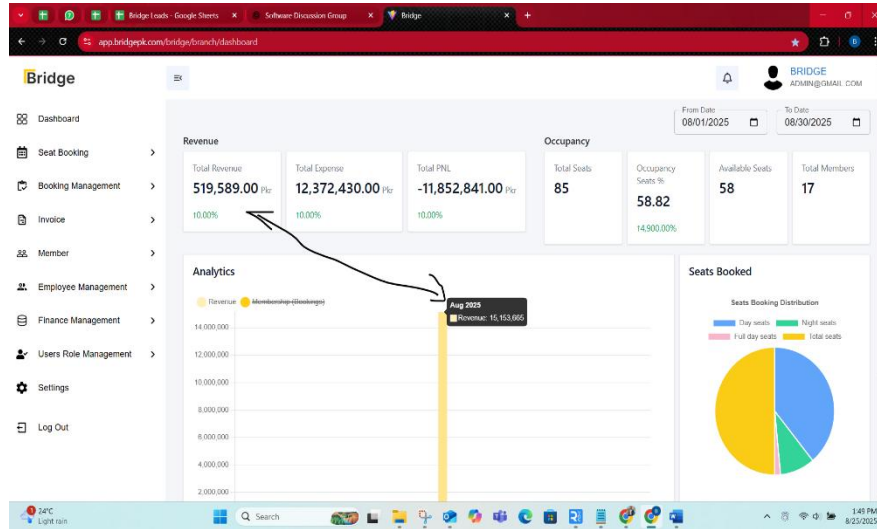

2. Branch Dashboard – Revenue, Expenses & Seats

- When accessing the **Branch Dashboard**, revenue, expenses, and seats figures are displayed.
- On clicking these figures, the system does **not** navigate to their respective detailed modules.

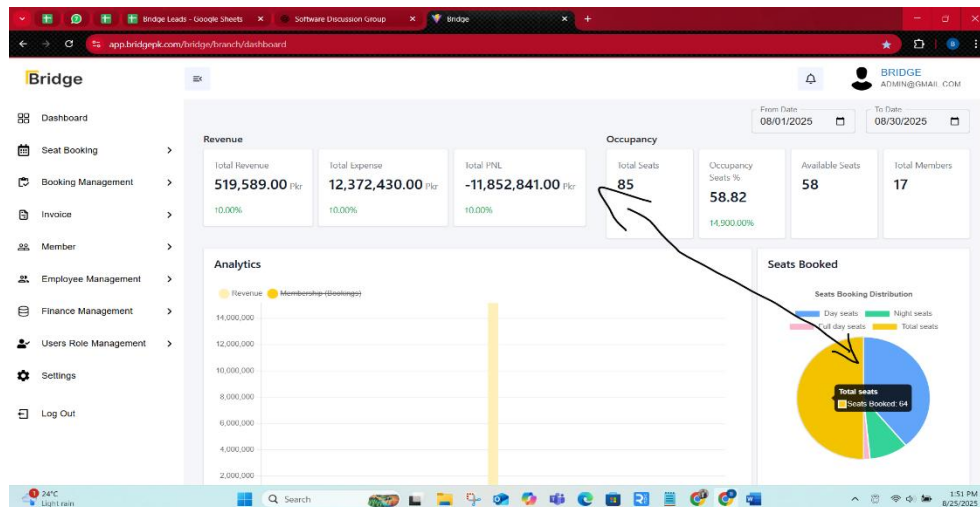

3. Revenue Analytics Mismatch

- **Revenue displayed in Analytics and Actual Revenue reports do not match.**
- This creates confusion and raises concerns about data accuracy.

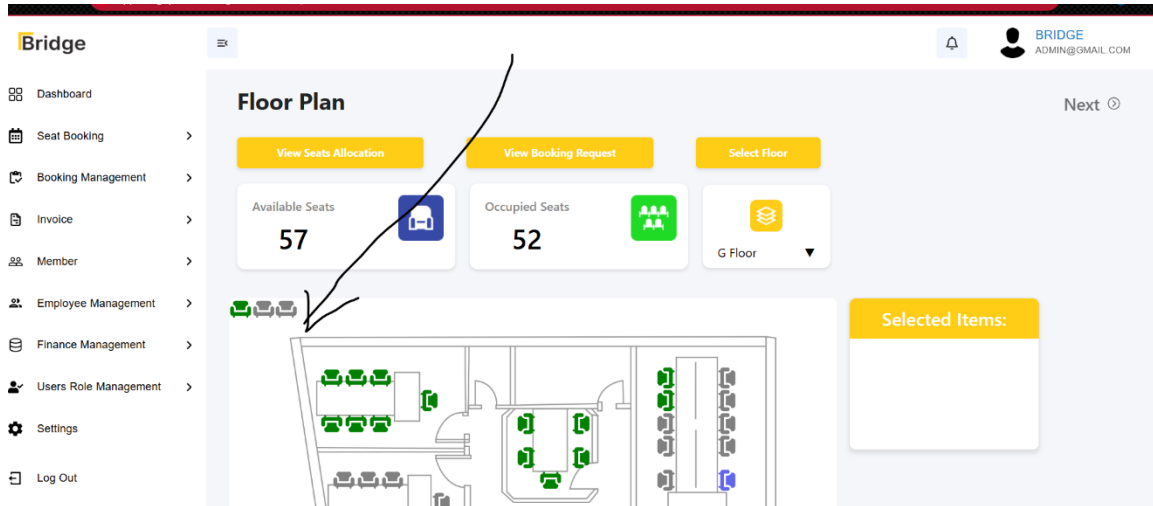

4. Seat Availability Pie Chart

- The **Pie Chart** displaying available vs. occupied seats is **not synchronized** with the actual seat numbers displayed above.

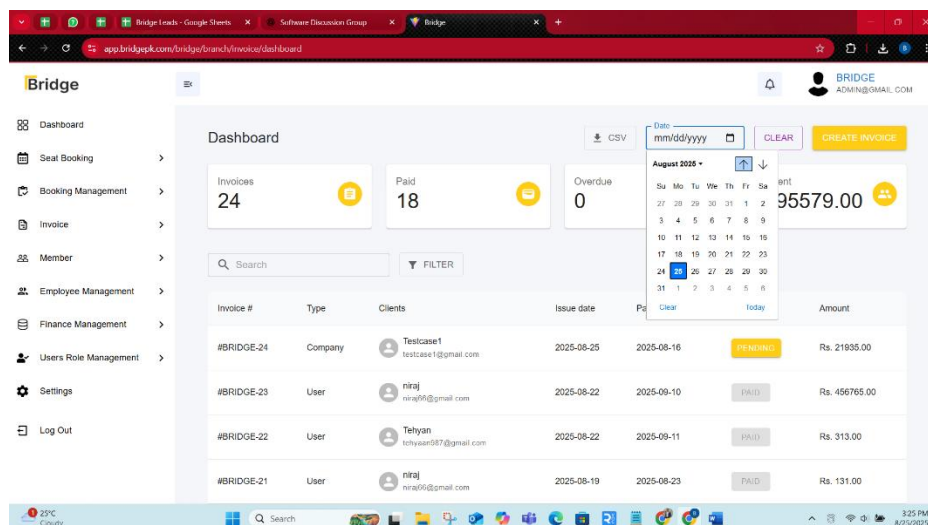

5. Seat Management

- Seats can be **created**, but there is **no option to delete** seats.

6. Invoice Dashboard – Date Filter

- Currently, the dashboard has only a **Start Date** filter.
- There's **no End Date** filter available.
- Additionally, the **single-day selection** is not working properly.

7. Invoice Dashboard – Pagination

- The **Next button** on the invoice dashboard is not functional.
- Even when clicked, the **next page invoices** do not load.

Invoice #	Type	Clients	Issue date	Payment Date	Status	Amount
#BRIDGE-24	Company	Testcase1 testcase1@gmail.com	2025-08-25	2025-08-16	PENDING	Rs. 21935.00
#BRIDGE-23	User	niraj niraj66@gmail.com	2025-08-22	2025-09-10	PAID	Rs. 456765.0
#BRIDGE-22	User	Tehyan tehyaan987@gmail.com	2025-08-22	2025-09-11	PAID	Rs. 313.00
#BRIDGE-21	User	niraj niraj66@gmail.com	2025-08-19	2025-08-23	PAID	Rs. 131.00
#BRIDGE-20	Company	Asad Mehran asadmehran00@gmail.com	2025-08-19	2025-08-02	PAID	Rs. 40000.00

8. Invoice Type & Design

- Currently, only the **Invoice Name** is displayed.
- Missing features:
 - Invoice **Templates**
 - **Color Schemes**
 - **Invoice Notes**

< Invoice Types		NEW INVOICE TYPE
Name	Action	
Company Invoice	EDIT DELETE	
Monthly	---	
Printing Papers	---	
Meeting Rooms	---	
Monthly	---	
Printing Papers	---	
Meeting Rooms	---	
AGM Invoice	EDIT DELETE	
Template 1	EDIT DELETE	

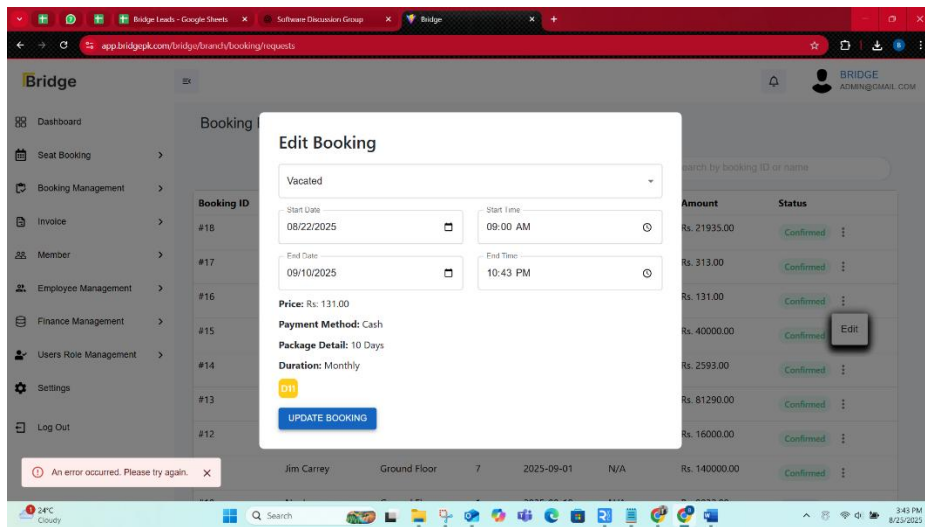

9. Members Details

- The **filter options** and **month selection button** are not functional.

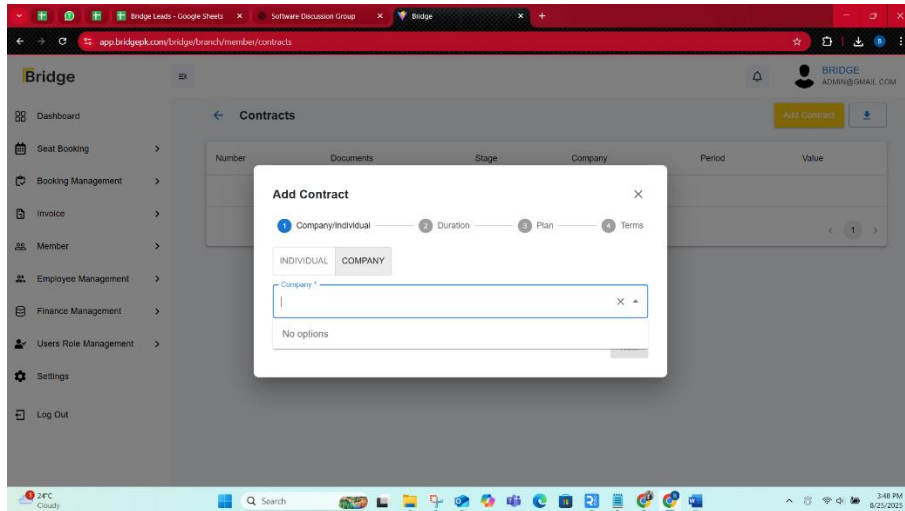

10. Booking Management

- When a client vacates a seat, the system does **not** allow freeing the seat immediately.
- It only works if we **extend the booking duration**, which is incorrect.
- Even after vacating, the user still shows as **Active** in the **Members List**.

11. Contract Management

- While adding a **contract**, the **Users** and **Companies** dropdowns are empty.

User Dashboard Error

1. Available Seats Count Issue

- When total seats = **5** and **1 seat is occupied**, the **Available Seats** should display **4**, but the count is not updating correctly.

The screenshot shows a dashboard with four summary cards: Available Seats (5), Occupied Seats (1), Booking (74.0), and Printing Papers (250). Below these is a table with columns: Booking ID, Floor, Room Name, Name, Date, Start Time, End Time, and Status. To the right of the table is a Notifications section with three items: Invoice Updated - Bridge, Pending Invoice - Bridge, and Booking Confirmation - Bridge.

Booking ID	Floor	Room Name	Name	Date	Start Time	End Time	Status
------------	-------	-----------	------	------	------------	----------	--------

2. Staff Addition – Invalid Date Error

- When adding a **new staff member**, the system shows “**Invalid Date**” if the joining date is changed.

The screenshot shows a form for adding a new staff member. The form has two columns. The left column contains fields for Name, Email, Phone Number, and Password. The right column contains fields for Printing Papers, Booking Hours, Seat No, Designation, Date Joined, and Address. The Date Joined field shows an error message "Invalid Date".

Name	Email	Phone Number	Password	Printing Papers	Booking Hours	Seat No	Designation	Date Joined	Address
2	user2@gmail.com	admin@gmail.com		0	0	C2	dev	Invalid Date	

3. User Creation – Required Fields Issue

- While **creating a new user**, the system **requires Printing Pages and Credit Hours**, which should **not** be mandatory for individual staff.
- **Clarification:**
 - **Printing Pages & Credit Hours** are assigned to the **company**, not individual staff members.
 - Instead, the staff creation form should require **staff-specific information**, such as:
 - **Blood Group** (*Optional*)
 - Other relevant employee details.

The screenshot shows a user creation form with two columns of input fields. On the left, there is a profile icon placeholder and fields for Name, Email, Phone Number, and Password. On the right, there are fields for Printing Papers, Booking Hours, Seat No, Designation, Date Joined, and Address. The 'Printing Papers' and 'Booking Hours' fields are highlighted in red, indicating they are required. The 'Seat No' field is a dropdown menu showing 'C2'. The 'Date Joined' field shows '25/08/2025'. A yellow 'Save' button is at the bottom center.

Field	Value	Required
Name	2	No
Email	user2@gmail.com	No
Phone Number	admin@gmail.com	No
Password		No
Printing Papers	0	Yes
Booking Hours	0	Yes
Seat No	C2	No
Designation	Dev	No
Date Joined	25/08/2025	No
Address		No

4. Unable to Add Third Staff Member

- After adding **two staff members**, the system **does not allow adding a third** despite completing all required fields.

Name

Email

Phone Number

Password

Printing Papers

Booking Hours

Seat No

Designation

Date Joined

Address

Save

5. User Booking Management Issues

- Within the **User Booking Management** module:
 - The **filter** options are **not functional**.
 - Users **cannot request a boardroom**.
 - Users **cannot request a new seat**.
 - Users **cannot see our other products**
